

# CALC Training

## OBJECTIVES

Local councils operate in a dynamic environment, and training programs help them stay abreast of emerging trends, new legislation, and evolving community needs. By continuously improving their knowledge and skills, council members and staff can better respond to the changing demands of their roles and serve their communities effectively.

Training programs organised by CALC provide opportunities for council members and staff from different local councils to come together, share experiences, and build networks. This fosters collaboration and the exchange of ideas, enabling local councils to learn from each other and implement innovative practices in their respective areas.

### **CALC Training allows you to:**

1. **Keep up with evolving needs**
2. **Effective governance and community service** – Stay abreast of emerging trends, new legislation and evolving community needs. The training offered by the Kent Association of Local Councils serves to empower local council members and staff with the knowledge, skills, and support necessary for effective governance and community service.
3. **Capacity Building** – Local councils often have elected members and staff with varying levels of expertise and experience. Training programs can help build their capacity and equip them with the knowledge and skills necessary to carry out their roles effectively.

## BENEFITS

- Gain valuable insights and knowledge to enhance your role as a Local Councillor or Officer.
- Network with fellow Councillors and Officers and share experiences.
- Access resources and tools to support your ongoing professional development.
